

35 points 2. Use the code in 3 avg.html as a pattern to modify. Write a html that uses a form with textboxes, that has as input a number of feet, a button that says 'calculate' and when clicked computes and displays the equivalent number of inches as output.

35 points 3. Find out what action results from following this flowchart for each set of data. Y means paid fee, N means didn't pay fee

Data a) 20, CT, Y

b) 10, CT, N

c) 18, NY, N
